Meets Secretary's report for Birks Fell, Robinsons Pot, Ludwell Fairy Holes and Mongo Gill

General

This is my 25th year as access controller and neither landowners nor permit holders have raised any problems regarding access to Birks Fell, Robinsons Pot, Ludwell Fairy Holes or Mongo Gill

Birks Fell

We now have a more formal agreement drawn up in a similar way to Robinsons Pot although the conditions of access remain the same as before. I have received 8 requests for permits for 2014, the same as in 2013 at this time.

Robinson's Pot

The access agreement allows a maximum of 5 permits per year on the second Saturday of each month, June to October inclusive. Only five requests for permits have been received so I propose to allocate the permits to those clubs.

Ludwell Fairy Holes

Last year was the first year of access to this cave and the access agreement of 1 permit per month appears to be working well. After a few hiccups all available permits were issued from July to December. All permits from now until September 2014 inclusive have been issued.

Mongo Gill

The new access agreement appears to be working without any problem. I have issued 1 permits for 2014 so far. No permits have been requested for Great Expectations, nor were any issued last year. The connection with Stump Cross stream way remains well and truly blocked by a major collapse.

Casterton Fell Report for 2013

A total of 54 clubs were issued with permits for the whole of 2013- (16 more than in 2011 and 7 more than 2012) this added up to 367 permits issued in total, A big increase from the 179 permits issued for the whole of 2011 and the 209 permits issued in 2012

We still have quite a number of clubs who are not BCA members making requests but these are refused and passed on for Glenn Jones to deal with.

Permits can now be requested and issued by email make everyone's life much easier, They can also be turned around in less than a week (provided I am not on holiday) and the CNCC web site has been altered to reflect this.

Les Sykes, has and is dealing with problems – and is trying to resolve permits for commercial caving

There are plenty of permits available for clubs but some weekends are full booked up already.

If anyone wishes to take on the Meets Secretary role for Casterton Fell, Alan is happy to relinquish the role

A.G.M. report for Penyghent/Fountains Fell 2014

2013 was my ninth year as access officer and in that time I have issued 584 permits, an average of 65 permits per year.

Last year was a good year with a total of 78 permits issued and no reported problems.

Report to CNCC AGM on 1nd March 2014 – Leck Fell Access Agreement.

During the last twelve months 631 permits have been issued to a total of 58 clubs. The figures for previous years were as follows:

Year	Number of permits	Number of clubs
03/04	197	63
04/05	191	58
05/06	181	48
06/07	187	41
07/08	354	46
08/09	367	51
09/10	363	40
10/11	317	47
11/12	465	48
12/13	725	56
13/14	631	58

Since the last AGM demand for permits seems to have been more or less steady over the year as a whole, in comparison with the previous twelve months. Overall there was a small increase in the total number of clubs issued with permits than for the year 12/13. So far 20 clubs have been issued with permits for the coming year. This is a few less than the number issued for the following year, at the same time last year.

Clubs from all of the caving regions of the UK have asked for access, throughout the year, and as usual, many of the clubs local to the Dales were in touch on a regular basis for permits. Subjectively it seems that this year more clubs have been making several visits to the fell rather than having just one or two meets.

Going forward with the exception of Sunday 30th all the weekend dates in March 2014 are now fully booked. From July 2014 no weekend is currently fully booked and availability is good.

Date – 08/02/2014
