

# CNCC/DCA Equipment Committee Anchor Instructor Assessment

**Candidates name:**

**Assessor:** Les Sykes

**Certificate number:** 0304/035395/728181/VTV4023/1/28/01/56

© CNCC and DCA

Proficiency Area	Performance Requirements (Criteria)	Performance Evidence	Assessment Methods
Theory	<p>Anchor replacement scheme</p> <p>Recording anchor placements.</p> <p>Anchor documentation.</p> <p>Anchor placements.</p> <p>Angles of loading.</p> <p>PPE requirements.</p> <p>Anchor position and orientation.</p> <p>Pitch head constraints and other hazards.</p> <p>Anchor configuration for pull through trips, ladder and life line techniques.</p>	<p>Candidate must be able to: Demonstrate a thorough knowledge of anchor replacement program.</p> <p>Explain the required level of record keeping.</p> <p>Explain the documentation procedure as required by IPTD.</p> <p>Explain the theory of anchor placement.</p> <p>Explain angles of loading and how these may influence the placement.</p> <p>State the PPE requirements for people installing anchors.</p> <p>Explain anchor positions and the correct orientation.</p> <p>Explain the hazards present at pitch heads and how this influences the position and location of the anchors.</p> <p>Explain the installation configuration for pull through trips and ladder and life line techniques.</p>	<p>Visual and Oral</p>

Proficiency Area	Performance Requirements (Criteria)	Performance Evidence	Assessment Methods
<p>Practical anchor installation</p>	<p>Selecting a suitable substrate for anchor installation in a safe location.</p> <p>Constraints imposed by substrates.</p> <p>Correct use of PPE.</p> <p>Anchor installation.</p> <p>Pre-use inspection.</p> <p>Anchor installation (attendees)</p> <p>Safety and PPE.</p>	<p>Candidate must be able to: Demonstrate to attendees a suitable location.</p> <p>Explain the different types of problems encountered when choosing an installation site.</p> <p>Demonstrate the correct use of PPE.</p> <p>Demonstrate the correct method of installing an anchor and outlines in BCA Installation Procedure, Training and Documentation document.</p> <p>Explain and demonstrate the correct pre-use inspection and check.</p> <p>Observe and coach attendees during anchor installation.</p> <p>Manage effective safety of the group and practical use of PPE during the attendees anchor installation.</p>	<p>Visual and oral</p>

## Assessment appraisal

Subject Area	Performance Requirements (Criteria)	Competent	Not Yet Competent	Assessor Comment
Theory	BCA anchor replacement scheme Recording anchor placements. Anchor documentation. Anchor placements. Angles of loading. PPE requirements. Anchor position and orientation. Pitch head constraints and other hazards. Anchor configuration for pull through trips, ladder and life line techniques.	Yes Yes Yes Yes Yes Yes Yes Yes Yes Yes Yes		
Practical	Selecting a suitable substrate for anchor installation in a safe location. Constraints imposed by substrates. Correct use of PPE. Anchor installation. Pre-use inspection. Anchor installation (attendees) Safety and PPE.	Yes Yes Yes Yes Yes Yes Yes		

## Assessment statement

The candidate ..... is deemed competent/not competent to instruct covers in anchor installation as defined by CNCC/DCA document Installation Procedure, Training, & Documentation.

Assessors Name:..... Les Sykes..... Date:.....  
 Certificate No. 0304/035395/728181/VTV4023/1/28/01/56

### Final Competence

Competent                      Yes/æ
